Valorization of Plant-Based Food Wastes and Byproducts: Compounds of Interest for the Food, Pharmaceutical, Cosmetic and Textile Industries

Guest Editors:

**Prof. Dr. Rúbia Carvalho
Gomes Corrêa**

Cesumar Institute of Science,
Technology and Innovation-
ICETI, Cesumar University-
UniCesumar, 1610 Guerdner
Venue, Acclimation Gardner,
Maringa, Parana, Brazil

**Prof. Dr. Rosane Marina
Peralta**

Postgraduate Program in
Biochemistry, Department of
Biochemistry, State University of
Maringa, Maringa, Brazil

Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editors

Worldwide, one-third of plant-based food produced for humans is wasted, generating byproducts which may be treated and processed into novel biomaterials. The valorization of plant-based waste and food byproducts will play a pivotal role in harnessing the potential of such biomasses for various applications ranging from renewable energy production to the development of novel therapeutical drugs. The authors hope that the knowledge generated around this topic will contribute to a more sustainable food system and a bio-based circular economy.

For this Special Issue on the “Valorization of Plant-Based Food Waste and Byproducts: Compounds of Interest for the Food, Pharmaceutical, Cosmetic and Textile Industries” we seek high-quality works focused on strategies for recovering plant-based food waste, the characterization of vegetable residues, and the development of upcycled biomaterials for industrial applications.

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
