and Forestry Sciences (SAAF),  
University of Palermo, Viale delle  
Scienze, Ed. 5, 90128 Palermo,  
Italy

**Prof. Dr. Dimitrios Savvas**

Laboratory of Vegetable  
Production, Department of Crop  
Science, Agricultural University of  
Athens, Iera Odos 75, 11855  
Athens, Greece

Deadline for manuscript  
submissions:  
**closed (30 August 2023)**

### Message from the Guest Editors

Dear Colleagues,

In this Special Issue entitled “Innovative Crop Management Practices for Maximizing the Production of Vegetables”, we invite researchers and experts to contribute original research, critical reviews, and opinions exploring innovative tools/strategies for improving nutrient use efficiency, technology development for water, fertilization and pest management, innovative greenhouse design and the design of other controlled environment systems, vertical farming, integrated and organic crop management, innovative substrates and soilless production systems (floating, NFT), novel biostimulants, plant-growth-promoting microorganisms and biofortificants, and high-throughput phenotyping approaches and breeding strategies aiming to increase resource use efficiency and abiotic stress tolerance. We also encourage contributions on agronomic practices and techniques such as soil tillage, fertilization, crop rotations, intercropping, irrigation, pruning, nursery management, grafting, and weed control that support sustainable crop production systems and intensification and improve long-term food security.

## Editor-in-Chief

**Prof. Dr. Dilantha Fernando**  
Department of Plant Science,  
University of Manitoba, Winnipeg,  
MB R3T 2N2, Canada

## Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
