an Open Access Journal by MDPI

Ecology, Evolution, Genomics, Molecular Interactions and Agricultural Application of Legume and Rhizobium Symbionts

Guest Editors:

Dr. Wenfeng Chen

College of Biological Science,
China Agricultural University,
Beijing 100193, China

Dr. Ricardo A. Cabeza

Laboratory of Plant Nutrition,
Department of Crop Production,
Faculty of Agricultural Sciences,
University of Talca, Talca, Chile

Dr. Monika Toleikienė

Lithuanian Research Centre for
Agriculture and Forestry,
Kedainiai, Lithuania

Message from the Guest Editors

The symbiotic nitrogen fixation between rhizobium and legume is beneficial to agriculture, food and ecology as it provides high quality protein, oil and forage grass to humans, animals and soil. Exploring the relationship between them will help us to understand and exploit them more efficiently. However, many aspects related to this issue need to be studied in greater depth. This Special Issue of *Plants* will highlight the ecology, evolution, genomics, molecular interactions and agricultural application of legume and rhizobium symbionts.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
