Canberra, ACT 2601, Australia

Deadline for manuscript  
submissions:  
**closed (31 July 2023)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue is focused on research that adds to our understanding of the molecular and biochemical mechanisms which gives rise to the properties of plant cells. The scope of this SI includes the specialization of plant cells, cell–cell interactions, and responses to the environment. Studies on both model plants and crop species are welcome, as are review articles in this area.

Dr. Chris Helliwell

## Editor-in-Chief

**Prof. Dr. Dilantha Fernando**  
Department of Plant Science,  
University of Manitoba, Winnipeg,  
MB R3T 2N2, Canada

## Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
