Plasmodesmata and Intercellular Movement

Guest Editor:

Prof. Dr. Jae-Yean Kim

Division of Life Science,
Gyeongsang National University,
27-306, 501 Jinju-Daero, Jinju,
Gyeongnam 660-701, Republic of
Korea

Deadline for manuscript
submissions:

closed (30 October 2017)

Message from the Guest Editor

This Special Issue, on the “Plasmodesmata and Intercellular Movement”, offers an open access forum for bringing together investigators with different approaches in studying, not only their biogenesis, composition, structure, and regulation, but also non-cell autonomous function of signaling micromolecules and macromolecules, such as transcription factors and RNAs. We encourage scientists to contribute original research papers and reviews dedicated to the plasmodesmata and intercellular movement of cellular components.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
