The Use of Ozone in Agriculture Technological Processes

Guest Editors:

Prof. Dr. Krzysztof Śmigielski
Department of Environmental Biotechnology, Faculty of Biotechnology and Food Science, Lodz University of Technology, Wólczańska 171/173, 90-530 Łódź, Poland

Prof. Dr. Maciej Balawejder
University of Rzeszow, College of Natural Sciences, Department of Chemistry and Food Toxicology,35-601 Rzeszów, Poland

Deadline for manuscript submissions:
closed (31 March 2022)

Message from the Guest Editors

Dear Colleagues,

Ozone is used in agriculture technological processes in the form of gas or water solutions. This strong oxidant is used both at the final stage of production, i.e., the hygienization of finished products, and at earlier stages, stimulating development and protecting plants. It is also used as a destructive factor of chemical plant protection products. Ozone is safe, but its toxicity requires the use of mature technical culture. Our knowledge of ozone is moving faster and faster from design research to implementation in food and agricultural production.

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
