Biocontrol of Plant Diseases: Antagonist Microorganisms, Biostimulants, Induced Resistance (IR)

Guest Editors:

Dr. Carlos Agustí-Brisach

Agroforestal Pathology Research
Group, Department of Agronomy,
ETSIAM, University of Cordoba,
14071 Cordoba, Spain

Dr. Eugenio Llorens

Laboratory of Biochemistry and
Biotechnology, Area of Vegetal
Physiology, Department of
Agricultural Sciences, Universitat
Jaume I, 12071 Castellon, Spain

Deadline for manuscript
submissions:

closed (30 April 2022)

Message from the Guest Editors

Dear Colleagues,

Biocontrol of plant diseases is considered one of the most important and current challenges of our society due to the need to look for eco-friendly alternatives against chemicals. Thus, research towards biological control *sensu lato* (antagonist microorganisms, biostimulants, induced resistance (IR)) for plant diseases is an urgent demand from the agro-food sector of the Euroregion, as well as for our society in the frame of European Green Deal. Exploring the different biocontrol tools as well as their combined effect against plant diseases is essential to generate knowledge on this topic to find optimum management strategies in crop protection in the frame of organic and sustainable agriculture. This Special Issue of *Plants* will bring together a collection of research papers on applied plant pathology and targeted reviews of biocontrol, including studies about antagonist microorganisms, biostimulants, and resistance host inducers against plant diseases.

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [PubAg](#), [AGRIS](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
