submissions:

**closed (15 January 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue, entitled “marine pollutants”. All the types of marine pollution will be considered: from planetary scale issues, such as oceans acidification, warming, and eutrophication, to local-scale impact, such as oil spills, chemical and biological contamination, and underwater noise. Papers dealing with plastic and microplastic in the marine environment are also welcomed. The covered topics will span all the aspect of marine pollution, including occurrence, fate, and bio-ecological effects of the marine pollutants; impacts on fishing and aquaculture, analytical methods and monitoring techniques; mitigation and remediation strategies; green technologies and blue economy, law and policies. We would like to encourage you to submit to this Special Issue your original research papers, short communication of preliminary results, review articles, or commentaries to stimulate the discussion.

## Message from the Editor-in-Chief

*Pollutants* is a multidisciplinary, peer-reviewed, open-access journal of all aspects of environmental pollution published quarterly online by MDPI. It covers Environmental Sciences and Engineering, Environmental Systems, Water Resources, Environmental Economics and Policy, Environmental Health, etc. It publishes reviews, research articles, communications, and technical notes. Papers taking a holistic approach among multiple temporal and spatial scales are especially welcome.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within ESCI (Web of Science), Scopus, AGRIS, and many other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 32.8 days after submission; acceptance to publication is undertaken in 11.7 days (median values for papers published in this journal in the second half of 2025).
