

## Advances in the Processing and Application of Polymers and Their Composites III

Guest Editors:

**Dr. Hui Zhao**

School of Light Industry and  
Food Engineering, Guangxi  
University, Nanning, China

**Dr. Wei Wu**

Engineering Center for  
Superlubricity, Jihua Laboratory,  
Foshan 528200, China

Deadline for manuscript  
submissions:

**30 November 2024**

### Message from the Guest Editors

Polymeric materials and their composites have been widely utilized in previously unimagined areas due to their light weight, high flexibility, and excellent processing ability. Along with the fast-increasing consumption of polymeric materials in recent years, the demand for advanced polymer processing technology is ever-increasing. Advanced polymer processing, including 3D printing, electrospinning, extrusion, injection molding, compression molding, casting, injection molding, etc., can convert polymeric materials into various useful products. Obviously, the processing conditions, properties, and structures of polymeric materials and their composites have a close relationship with each other. The aim of this Special Issue is to present a collection of research or review papers to depict the recent progress in the processing and application of polymeric materials and their composites. We welcome contributions dealing with related research fields; we hope that this stimulating subject will inspire you to submit a manuscript to this Special Issue.

# *polymers*

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Alexander Böker**

Lehrstuhl für Polymermaterialien  
und Polymertechnologie,  
University of Potsdam, 14476  
Potsdam-Golm, Germany

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
