Message from the Guest Editors

This Special Issue aims to present scientific studies focusing on the development, use, and application of polymer materials with PCM, considering the past, present, and future of these solutions. Review contributions in this subject are also welcome. The topics of interest in this special issue may include but are not limited to the formulation and development of innovative PCM foams; laboratorial and experimental testing of polymer PCM solutions (i.e., solutions with polymer macrocapsules filled with PCM); numerical and/or dynamic simulation of polymer PCM solutions (i.e., insulation wallboards with PCM foams); numerical and/or experimental optimization of polymer PCM solutions; and review of polymer PCM applications and developments.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
