Message from the Guest Editor

Dear Colleagues,

The preparation of reinforced rubber and its composites has become a procedure of utmost importance for rubber product development. Many industries are facing major challenges in the search for the optimum type and loading quantity of reinforcing fillers in rubbers together with understanding their mechanochemical and other related properties. This Special Issue, entitled “Reinforced Rubber and Its Composites”, will serve as an important platform for the development of rubber composites, including conventional composites and newly developed “nanocomposites” for the benefits of research and industrial communities.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
