Deadline for manuscript submissions:

closed (29 February 2024)

Message from the Guest Editors

Today's world is witnessing a growing concern for the environment as a result of global warming, energy crises, and waste generation. The growing demand for products with a low environmental impact has led to a greater focus on sustainable and renewable materials by the scientific community. In this scenario, cellulose is one of the most prominent candidates for use in different fields of applications in a sustainable manner, with regard to its abundant availability from various resources. In particular, nanocellulose presents outstanding characteristics, such as renewability, a high aspect ratio, good mechanical properties, excellent biocompatibility, hydrogen-bonding capacity, reinforcing potential, and degradability.

The scope of this Special Issue is to report recent achievements in the advanced preparation and emerging applications of cellulose-based materials. In particular, topics of interest include, but are not limited to, the following:

- Healthcare;
- Water purification;
- Energy storage;
- Filtration;
- Environment;
- Automotive;
- Aerospace;
- Defence;
- Sensors;
- Adhesives;
- Packaging;
- Food;

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

Author Benefits

Open Access: free for readers, with articles being instantly and fully available online. We would be pleased to welcome you as one of our authors.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compindex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers.
