Deadline for manuscript submissions:

closed (25 January 2024)

Message from the Guest Editors

Polymers are widely studied for their advantages of effectiveness and applicability in heavy metals treatment in multiple environmental conditions in recent years.

In view of the importance of polymers in environmental applications, this Special Issue “Polymeric Materials in Heavy Metal Treatment” invites recent advances in subjects focusing on but not limited to the design and synthesis of functional polymers as well as their application in heavy metals treatment. This Special Issue will provide timely and comprehensive references for recent progress in this subject, with the expectation to promote the corresponding fundamental research and its practical applications. Papers are not limited to original research articles. Reviews, perspectives, and short communications are also welcomed.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
