Message from the Guest Editors

Polyurethane, cellulose and their composites have been widely used in hitherto unimagined areas due to their excellent properties. Along with their fast-increasing consumption in recent years, the demand for advanced polyurethane and cellulose-based composites is growing rapidly. Therefore, this Special Issue seeks to showcase research papers, short communications, and review articles that focus on innovations in polyurethane and cellulose-based materials, including material synthesis, modification and engineering.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
