Department of Chemical
Engineering, Instituto Superior
Técnico, Universidade de Lisboa,
1049-001 Lisboa, Portugal

Deadline for manuscript
submissions:

15 November 2024

Message from the Guest Editors

Dear Colleagues,

Photopolymerization technology is now undoubtedly rooted in our day-to-day lives. Being widely recognized as environment-friendly, energy-saving and relatively low-cost, photopolymerization processes are constantly under the magnifying glass due to both their broad applications in the coating, adhesive, ink, lithography and dentistry industries and their huge potential in additive manufacturing and other emerging fields.

However, the ongoing research on novel photopolymerizable systems is pushing the boundaries of this technology further and further, hinting at new possibilities and advanced applications.

The scope of this Special Issue, “Latest Progresses in Photopolymerization”, is to present original research articles and review papers on cutting-edge works ranging from the synthesis to processing, characterization and applications of novel photopolymerizable systems.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
