Fujian Agriculture and Forestry
University, Fuzhou 350002, China

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editor

Dear Colleagues,

Energy shortage and environmental pollution have attracted worldwide attention owing to the highly developed industry and population explosion. To overcome these issues, some advanced polymer materials have been widely developed and explored in these fields due to their unique advantages such as high strength, high flexibility, high stability, high insulation resistance, etc. Therefore, the development of advanced polymers (high-performance polymers, polymer composites, polymer membranes, microporous polymers, etc.) for energy and environment applications is a very important and hot topic. This Special Issue aims to invite and accept articles (all types, including research articles, communications, reviews, perspectives, analyses, etc.) regarding the development, exploration, and engineering of advanced polymers for energy and environment applications.

Dr. Guangfu Liao

Guest Editor

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
