Deadline for manuscript
submissions:

closed (15 June 2023)

Message from the Guest Editor

Advanced polymer thin film materials are the large and versatile class of materials being extensively applied in industry. From obtaining polymer thin films, the possibilities to design and modify their physical–chemical properties make these systems of great interest in a wide range of e.g. food, packaging, heavy, medical and pharmaceutical industries. In recent years, advances in the preparation and modification of advanced polymer thin film materials and characterization techniques have allowed the design of novel materials which are widely used in the broadly understood industry and home use.

The purpose of this Special Issue is to highlight recent achievements from the preparation and modifications of polymer thin film to final applications in the field of industry.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
