University, Xi'an 710129, China

Deadline for manuscript  
submissions:

**closed (15 June 2023)**

### Message from the Guest Editor

Dear Colleagues,

Molecular engineering is an emerging and fast-growing field. The study of biomass molecular engineering has enhanced the green and efficient utilization of biomass and transformed biomass into ideal chemicals, high-performance materials and polymers, and valuable products, such as high-performance hydrogels and bioplastic.

This Special Issue may include the following topics:

- (1) Lignin-derived chemicals and materials;
- (2) Cellulose-derived chemicals and materials;
- (3) Hemicelluloses-derived chemicals and materials;
- (4) Plant oil-derived chemicals and materials;
- (5) Bioplastic.

Dr. Xiao-Feng Sun

und Polymertechnologie,  
University of Potsdam, 14476  
Potsdam-Golm, Germany

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
