

State-of-the-Art Polymer Science and Technology in Greece

Guest Editors:

Dr. Asterios (Stergios) Pispas

Theoretical and Physical
Chemistry Institute, National
Hellenic Research Foundation, 48
Vassileos Constantinou Ave.,
11635 Athens, Greece

Prof. Dr. Spiros H. Anastasiadis

Institute of Electronic Structure
and Laser, Foundation for
Research and Technology-Hellas,
N. Plastira 100, 700 13 Heraklion
Crete, Greece

Prof. Dr. Hermis Iatrou

Department of Chemistry,
University of Athens,
Panepistimiopolis, Zografou,
15771 Athens, Greece

Message from the Guest Editors

Polymer science is currently a rapidly developing field of research and innovation worldwide. A large number of research groups in Greece are active in different subfields of polymer science and technology and contribute to the global and national efforts for social and economic development at both basic science and application levels. Research activities include polymer synthesis, polymer characterization and property elucidation, polymer physics, polymer physical chemistry, and theoretical description and understanding of polymer systems. Greek polymer scientists maintain close collaborations with a variety of Greek and international industries and innovation enterprises contributing to the European economy, in areas like commodity and special material development, pharmaceuticals, medicine, food products, and construction, as well as knowledge and technology transfer. This Special Issue will give a representative picture of state-of-the-art directions in the science and technology of polymers in Greece at the beginning of the 21st century.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
