

Sustainable Development of Advanced Polymer Composites

Guest Editor:

Dr. Han Zhang

School of Engineering and
Materials Science, Queen Mary
University of London, London, UK

Deadline for manuscript
submissions:

25 November 2024

Message from the Guest Editor

Dear Colleagues,

To achieve a sustainable future and mitigate the effects of climate change, it is essential to reduce our environmental impact and strive for net-zero emissions. Advanced polymer composites have the potential to play a critical role in this journey by providing lightweight and durable materials that can be used in a wide range of sectors, including aerospace, automotive, construction, and renewable energy. However, as with any technological advancement, it is crucial to ensure that the development and use of these composites do not counteract sustainable development initiatives. To ensure the sustainable development of advanced polymer composites, it is necessary to adopt a holistic approach that covers all stages of the composite's life cycle.

This Special Issue aims to address the challenges and opportunities related to the sustainable development of advanced polymer composites and takes a holistic approach to promote a circular economy for advanced polymer composites to ensure the sustainable development of the field.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
