Message from the Guest Editors

Polysaccharides are natural biopolymers that possess a great variety of potential applications, such as food packaging, tissue engineering, and bioactive and drug delivery, and are considered potential biomaterials for the biomedical, biotechnological, and industrial sectors. Therefore, polysaccharides have received immense interest in recent years.

This Special Issue, entitled “Applications of Polysaccharide-Based Materials”, is devoted to the latest advances in research and development in this field, covering recent progress and trends in the preparation, characterization, and applications of polysaccharide-based materials.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
