Deadline for manuscript submissions:  
**closed (5 July 2022)**

### Message from the Guest Editor

Recently, the research of polymer materials in the field of energy conversion and storage has attracted extensive attention. More and more scholars have found that polymer materials have great application potential in energy conversion and storage devices, such as batteries, capacitors, electrostrictive actuator, and force sensor, etc.

This Special Issue "Polymer Energy Conversion and Storage Materials" covers the research of polymer materials in the field of energy conversion and storage. These topics typically involve different types of energy such as mechanical, chemical, and electric. Experts are welcome to contribute to the Special Issue through original research articles, such as feature articles or review papers.

an Open Access Journal by MDPI

## Editor-in-Chief

und Polymertechnologie,  
University of Potsdam, 14476  
Potsdam-Golm, Germany

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
