

Preparation, Characterization and Applications of Advanced Polymer Coatings

Guest Editor:

Dr. Qing Wu

School of Materials Science and Engineering, Shaanxi Key Laboratory of Green Preparation and Functionalization for Inorganic Materials, Shaanxi University of Science & Technology, Xi'an 710021, China

Deadline for manuscript submissions:

closed (10 June 2024)

Message from the Guest Editor

Advanced polymer coatings include the use of novel or hybrid polymers/materials and advanced modification technologies to develop structural and functional coatings for protection in demanding contact conditions or extreme environmental conditions, or for enhanced interfacial interactions and properties to improve the overall performance of composites. These coatings can prolong the service life of materials, provide special protection functions, and extend the application range of products.

The present Special Issue of *Polymers*, entitled “Preparation, Characterization and Applications of Advanced Polymer Coatings,” welcomes original research papers and reviews.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
