Message from the Guest Editors

Polymers make up many of the natural and artificial materials, ranging from proteins, nucleic acids and living organisms to plastics and rubbers. As a consequence, characterizing and understanding the chemical, physical, mechanical, or biological properties and processes of polymers has been a long research subject. Given the fact that the interaction between two matters initiates and proceeds from the interface that separates them, exploring the interfacial phenomena occurring at the polymer surfaces and interfaces, and finding out their principles and controlling strategies are significantly crucial in polymer science and technology. This Special issue is devoted to collect experimental, theoretical and numerical studies of novel interfacial effects of different polymeric materials, which include, but are not limited to, polymer films, polymer particles, and biopolymers.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
