Message from the Guest Editors

Dear Colleagues,

This Special Issue of the journal *Polymers*, entitled “Advanced Polymer Electrolyte,” aims to bring together papers focused on the advanced polymer materials concerning optical or optoelectrochemical properties, ionic conductive properties and mechanical properties. These polymeric electrolyte materials mainly for energy or building applications. We aim to cover the fields of solar cell, electrochromic devices, batteries, fuel cells and sensors. Thus, we want to highlight the efforts of researchers who have contributed to recent development in those fields based on advanced polymer electrolyte as the aims of this Special Issue.

Dr. Chi-Ping Li

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
