Deadline for manuscript
submissions:
closed (30 April 2021)

Message from the Guest Editor

Dear Colleagues,

Synthetic polymers have developed considerably in the 20th century, and they are covering many applications as essential materials. Most of them are non-biodegradable and sometimes cause problems in the environment and living bodies. For a solution, research on biodegradable polymers has been active since the 1990's. Nowadays, we are facing urgent problems due to plastic marine debris and microparticles that dispersing all over the world. One of the proposed solutions is wider use of biodegradable polymers. Many challenges remain for the successful production and marketing of biodegradable polymers. Therefore research on biodegradable polymers should be continuous, and valuable information can be obtained from biodegradable polymers for medical use such as drug delivery and regenerative medicine. Given the success and readership of the first edition

(https://mdpi.com/si/polymers/biodegradable_polym), a second edition for continuously updating information and knowledge on biodegradable polymers has been organized.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
