Polymer Microscopy

Guest Editor:

Dr. Yi Thomann

Freiburg Materials Research
Center, University of Freiburg,
Stefan-Meier-Str. 21, D-79104
Freiburg, Germany

Deadline for manuscript
submissions:

closed (30 October 2020)

Message from the Guest Editor

Modern microscopic technologies have become indispensable for research and development in almost all scientific fields. Well-known techniques such as transmission electron microscopy (TEM), scanning electron microscopy (SEM), atomic force microscopy (AFM) or light microscopy (LM) are still the basis for polymer microscopy but have developed rapidly in recent years, becoming more versatile and adaptable according to the type of materials to be investigated. The scope of this Special Edition includes developments and applications of new microscopy techniques, but also investigations of interesting polymer systems with conventional microscopy methods. Therefore, polymer researchers focusing on material designs as well as researchers working on new technique developments are equally encouraged to participate in this Special Issue.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für
Angewandte Polymerforschung,
Lehrstuhl für Polymermaterialien
und Polymertechnologie,
Universität Potsdam,
Geiselbergstraße 69, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
