Message from the Guest Editors

Dear Colleagues,

Rubber is an important development field of modern new materials. High performance rubber, obtained by various modification methods, is used in the field of electronic information and biomedicine engineering, aerospace, and other important fields.

It is with great pleasure that we invite you to submit a manuscript related to rubber for this Special Issue, which includes papers related—but not limited—to synthesis, modification, process engineering, aging, recycling, etc. Remarkable contributions including research articles, communications, and reviews from experts all over the world are welcome.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
