Deadline for manuscript submissions:

closed (31 January 2022)

Message from the Guest Editor

Dear Colleagues,

Screw extrusion is among the most important polymer processes, with many applications in various industrial sectors. The aim of the Special Issue is to make a point on recent advances and developments concerning the different aspects of this process: single screw extrusion, twin-screw extrusion, die flows, reactive extrusion.

We are pleased to invite you to submit a paper in this Special Issue of Polymers, the deadline of which is April 2022. Original research articles and reviews are welcome. This Special Issue aims to gather contributions which cover the different aspects of the Extrusion Processes, such as experimental characterization, modelling and simulation, process optimization, process control, instrumentation, development and properties of new materials, industrial applications, etc.

We look forward to receiving your contributions.

Prof. Dr. Berzin Françoise

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
