Message from the Guest Editors

Currently, the transportation sector is experiencing significant, rapid changes as it evolves toward a scenario of zero or ultra-low emission vehicles. Battery electric and hybrid electric vehicles represent a significant chunk of the market today. Additionally, fuel cell vehicles and hydrogen technologies are emerging as a promising solution and attracting much attention in academic as well as industry research. Future mobility can also benefit from the well-consolidated knowledge on internal combustion engines that run with low exhaust emissions using e-fuels or hydrogen. Advancements in e-propulsion will help to fulfill future requirements for sustainable transportation. The aim of this Special Issue on the topic of "Toward E-Propulsion: Simulations and Experiments on E-Fuel-Based ICEs and Battery/Fuel-Cell-Powered E-Motors" is to collect novel advances in e-propulsion systems to provide an up-to-date view of the evolving transportation sector.

Deadline for manuscript submissions:

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
