## Message from the Guest Editors

This Special Issue on "Advances in Solid Waste Treatment Technology and Contamination Remediation" seeks high-quality works focusing on laboratory testing, field testing, and numerical modeling of solid waste. Topics include, but are not limited to:

- Processing and utilization of municipal solid waste, construction waste, and industrial waste.
- Geoenvironmental issues and disaster prevention of solid waste landfill.
- Remediation of groundwater and soil in contaminated sites.
- Life cycle assessment (LCA) and techno-economical analysis (TEA) of solid waste management.

Special Issue

## Editor-in-Chief

**Prof. Dr. Giancarlo Cravotto**
Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.
**High Visibility:** indexed within Scopus,
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.
**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
