Message from the Guest Editors

This Special Issue titled “Integrated Approaches to Eco-Friendly Processes for Persistent Pollutants Contamination” seeks high-quality works focusing on the latest novel advances in bioremediation technology. Topics include, but are not limited to, the following:

- Remediation techniques for persistent pollutants;
- Integrated remediation processes toward persistent pollutant removal/recovery;
- Low-cost and eco-friendly processes for wastewater treatment and soil remediation;
- Life cycle assessment and life cycle cost of bioremediation processes;
- Process modeling and optimization.

Deadline for manuscript submissions:

30 September 2024

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
