

## Advanced Nanomaterial-Based Sensing in Biological Systems

Guest Editors:

**Prof. Dr. Serhat Ünal**

Department of Infectious Disease  
and Clinical Microbiology,  
Hacettepe University, Ankara  
06230, Turkey

**Prof. Dr. Adil Denizli**

Department of Chemistry,  
Hacettepe University, Ankara  
06800, Turkey

**Dr. Yeşeren Saylan**

Department of Chemistry,  
Hacettepe University, Ankara  
06800, Turkey

Deadline for manuscript  
submissions:

**5 August 2024**

### Message from the Guest Editors

Nanomaterial-based sensors are being researched for use in a wide range of fields, including medical diagnostics, environmental monitoring, food safety, and biosecurity. In medical diagnostics, for example, nanomaterial-based sensors have been developed to detect cancer biomarkers, while in environmental monitoring, they have been used to detect pollutants in water and air. Overall, advanced nanomaterial-based sensing in biological systems is a very promising field that has the potential to provide highly sensitive and specific detection of biological molecules, which could lead to new and improved diagnostic tools, environmental monitoring, and other applications.

This Special Issue will cover the recent advances in different types of nanomaterial-based sensor platforms and their applications in medical applications.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
