Message from the Guest Editors

Advances in Microbial Biotechnology and Bioengineering Processes have led to a deeper understanding of the intricate workings of nature, offering exciting possibilities of applying biological principles to diverse scientific fields. These innovations hold promise in addressing crucial concerns such as enhancing crop productivity through microbial interventions, mitigating the depletion of natural resources, tackling environmental pollution through microbial degradation of pollutants, exploring nanomaterials, nanotoxicity, and safety considerations, as well as ensuring the safety of food and agricultural products.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
