

Analysis and Optimization Control of Active Distribution Networks and Smart Grids

Guest Editors:

Dr. Jingrui Zhang

Dr. Jian Wang

Dr. Po Li

Dr. Tengpeng Chen

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

This Special Issue will gather high-quality research articles with original contributions to studies on the analysis and optimization control of active distribution networks and smart grids. Topics of interest include, but are not limited to:

- Forecasting of renewable generations and active loads in active distribution and smart grid;
- Modeling and optimizing techniques in optimal operation of active distribution networks and smart grid;
- Morphological evolution of active distribution networks and smart grid;
- Hosting capacity assessment for renewables in active distribution networks and smart grid;
- Flexibility and resilience quantification for active distribution networks and smart grid;
- Security risk analysis and defense of cyber-physical system of active distribution networks and smart grids;
- Stability analysis and control of active distribution networks and smart grids;
- Power quality analysis and control of active distribution networks and smart grids;

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
