### Message from the Guest Editor

This Special Issue on “Design, Monitoring and Dynamic Model Development of Energy System” intends to present novel resilient and secure communication solutions for energy systems. Topics include but are not limited to:

- Dynamic models for integration of distributed energy systems;
- Monitoring and control of distributed energy systems;
- Cybersecurity solutions for distributed energy systems.

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus,  
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** CiteScore - Q2 (Chemical Engineering (miscellaneous))
