Deadline for manuscript
submissions:

2 March 2025

Message from the Guest Editors

The Special Issue, entitled “Oil and Gas Drilling Processes Control and Optimization”, will curate novel or practical advances in research on the use of numerical, experimental, analytical, and field studies related to drilling processes. The studies of rock mechanics, fluid mechanics, and parameter optimization are all linked.

Topics include, but are not limited to, the following:

- The development of numerical or analytical methods for fluid mechanics and rock mechanics-related behaviors during drilling and production;
- The development of experimental methods related to fluid mechanics and rock mechanics in drilling;
- Numerical and/or experimental methods in the characterization of multiphase flow in wellbores during drilling, completion, or production;
- Formation evaluation techniques related to control and optimization during drilling and production.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
