Message from the Guest Editors

This Special Issue on “Porous Materials and the Applications in Catalysis, Environment and Energy” seeks high-quality works focusing on the latest novel advances porous materials for catalysis, the environment and energy. Topics include, but are not limited to:

- Advanced porous materials (MOFs, COFs, HOFs, CMPs, etc.) synthesis with new structures;
- Composites containing porous materials or derivatives originating from porous materials;
- New technical progress of forming process of porous materials;
- Porous materials related characterization techniques;
- Applications of porous materials including catalysis, environment, energy.

Deadline for manuscript submissions:

closed (20 March 2024)

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
