Message from the Guest Editors

This Special Issue, entitled “Core Problems in and the Commercialization of Perovskite Solar Cells (PSC)” aims to illustrate the critical issues encountered during the PSC commercialization process. Topics include, but are not limited to:

- Commercially available process for PSC fabrication;
- Impacts of the lead-containing PSC on environments;
- The strategy for achieving long-term stable PSC;
- Cost analysis for commercialized PSC;
- The specialized application of PSC besides PV.

Deadline for manuscript
submissions:

closed (31 March 2024)

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
