Sustainable Process and Energy Systems, TNO (The Netherlands Organisation for Applied Scientific Research), 2628 CA Delft, The Netherlands

Prof. Dr. Fausto Gallucci

Inorganic Membranes and Membrane Reactors, Sustainable Process Engineering, Department of Chemical Engineering and Chemistry, Eindhoven University of Technology, 5612 AZ Eindhoven, The Netherlands

Message from the Guest Editors

This Special Issue on “Deep Eutectic Solvents: Green Solvents of the Future” aims to cover recent advances in research, development, and application of deep eutectic solvents. Topics include, but are not limited to, methods and/or application in the following areas:

- DESs as tailor-made solvents for processes (e.g., gas separation, LL extraction and metal extraction);
- Experimentally obtained data for various applications;
- Techno-economic studies of processes using DESs;
- Molecular dynamic simulations studies for theoretical understanding of DESs’ interaction nature.

Deadline for manuscript submissions:

31 May 2024

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
