Technological Innovation,
University of Piemonte Orientale,
viale T. Michel, 11-15121
Alessandria, Italy

Message from the Guest Editors

Topics include, but are not limited to:

- Chemical and biological diversity of salt-affected environments and/or their possible use in industrial and environmental biotechnology;
- Technological and/or management strategies to improve or solve environmental and social issues related to the salinization of soils, waters, and groundwaters.

This Special Issue calls for contributions across a broad range of areas to provide a comprehensive overview of these aspects. In this context, we welcome the submission of high-quality articles and reviews authored by basic or applied scientists, addressing the aforementioned topics.

Deadline for manuscript
submissions:

10 June 2024

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
