Message from the Guest Editors

Dear Colleagues,

The Mediterranean Congress of Chemical Engineering (MeCCE) is a triennial event that has been taking place in Barcelona since 1978 in the framework of the trade fair EXPOQUIMIA. The event gathers at the premises of Fira de Barcelona chemical engineers from the academy and the industry visiting the industrial exhibition, presenting and sharing new ideas, and networking.

This Special Issue is coordinated with the 14th MeCCE Scientific Committee, and it includes selected papers from this conference. This Special Issue focuses on, but is not limited to, papers that align with the topics of the conference:

Advances and results in **chemical engineering science**:

- Chemical reactors and separation technologies;
- Processes intensification and process systems engineering;

their applications in:

- sustainable development and environmental engineering;
- food, biochemical and biomedical engineering;
- process and product engineering;

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
