Deadline for manuscript  
submissions:

**closed (25 January 2023)**

### Message from the Guest Editor

Wastewater generation is inevitable. Therefore, it is essential to treat it in an efficient and effective way so as to minimize its effects on the environment. The development and implementation of wastewater treatment technologies have led to the emergence of many processes used for wastewater ultra-purification.

This Special Issue focusing on “**Biological and Physio-chemical wastewater Treatment Processes**” invites original, novel and rigorously researched quality work and results that have generic significance. The overall and main focus is on the publication of original and impactful research on the recent developments of sustainable and green technologies focusing on wastewater treatment. Topics on wastewater treatment covered include, but are not limited to:

- Physio-chemical processes ( Coagulation and Flocculation, Ion exchange, Adsorption/Biosorption);
- Biological processes (Membrane bioreactors, Aerobic processes, Anaerobic processes, Biofilm processes);
- Residual management and resource recovery;
- Contaminants (microbial, chemical and anthropogenic particles), related water quality monitoring, sensing, fate, and assessment.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Giancarlo Cravotto

Department of Drug Science and  
Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
