Message from the Guest Editors

This Special Issue “Polymers in Environment Protection Processes” aims to summarize the role of polymers in environmental protection. Polymers are a source of pollution themselves while, at the same time, playing an important role in maintaining a safe environment and improving its condition. The issue topics include, but are not limited to:

- Polymers involved in water treatment;
- Polymer composites reducing energy consumption in motor vehicles;
- Development of new energy technologies using polymer systems;
- Biodegradable polymers with different degradation kinetics in the environment; and
- Natural polymers used in waste segregation and utilization processes.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
