Message from the Guest Editors

This Special Issue on "Promising Analytical and Technological Strategies for Agri-Food Waste Valorisation" aims to curate novel advances in the valorization of agri-food waste through the recovery of bioactives and the application of new sustainable technologies to address their encapsulation. Topics include, but are not limited to, the following:

- Development of innovative green-extraction methods to recover bioactives from waste;
- Chemical-analytical characterization and evaluation of bioactivity of vegetable extracts;
- Optimization of extraction processes to drive large-scale methods toward sustainability;
- Advanced manufacturing techniques.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
