

Green Manufacturing and Sustainable Supply Chain Management

Guest Editors:

Dr. Yan Wang

School of Computing,
Engineering & Maths, University
of Brighton, Brighton, UK

Prof. Dr. Zhigang Jiang

Hubei Key Laboratory of
Mechanical Transmission and
Manufacturing Engineering,
Wuhan University of Science &
Technology, Wuhan 430081,
China

Dr. Wei Cai

College of Engineering and
Technology, Southwest
University, Chongqing 400715,
China

Deadline for manuscript
submissions:

closed (31 March 2023)

Message from the Guest Editors

The aim of the Special Issue is to explore scientific models, innovative methods, and state-of-the-art technologies in addition to surveying and reviewing research on manufacturing processes and supply chain, with the intention of providing researchers with a good starting point for entering these research areas. The intention is to collect a series of leading and high-quality papers on the ideas, approaches, and technologies that are being applied in the development of sustainable manufacturing processes and to highlight the associated barriers, challenges, and opportunities.

Topics of interest for this Special Issue include but are not limited to:

- Low carbon manufacturing and remanufacturing
- Optimization of sustainable logistics in the design of manufacturing products
- Technologies and methodologies for mitigating CO₂ emissions
- Optimal design of sustainable supply chains
- Product life cycle assessment for green manufacturing
- Energy efficiency optimization of manufacturing process
- Other green manufacturing technologies and methodologies

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: CiteScore - Q2 (Chemical Engineering (miscellaneous))
