Message from the Guest Editors

This Special Issue aims to act as a platform for researchers from around the world to discuss the current problems and consequences of the generation of food and agricultural waste, as well as proposals for overcoming these problems, which include the waste valorization of value-added products and their applications, in order to reduce and prevent their adverse environmental impact. Manuscripts related to all types of food and agricultural waste generation and their utilization, including innovative waste transformation techniques (e.g., pyrolysis, gasification, and hydrothermal carbonization), biological processes (e.g., syngas fermentation and anaerobic digestion), value-added products, biofuels, biorefineries, and Life Cycle Analysis, are welcome.

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
