Advanced Liquid Waste and Gas Waste Treatment Processes

Guest Editors:

Dr. Jacek Gebicki

Department of Process
Engineering and Chemical
Technology, Chemical Faculty,
Gdańsk University of Technology,
80-233 Gdańsk, Poland

Dr. Paweł Sobieszuk

Warsaw University of Technology,
Faculty of Chemical and Process
Engineering, Department of
Biotechnology and Bioprocess
Engineering, 00-645 Warsaw,
Waryńskiego 1, Poland

Dr. Piotr Rybarczyk

Department of Process
Engineering and Chemical
Technology, Faculty of
Chemistry, Gdansk University of
Technology, 80-233 Gdansk,
Poland

Deadline for manuscript
submissions:

closed (15 April 2023)

Message from the Guest Editors

The development of industry and increasing population are causing a growth in the demand for clean water and air and the progressive degradation of the environment, including increasing amounts of sewage and an increase in atmospheric pollution. Despite the relatively high level of wastewater and air treatment methods, it is necessary to constantly develop and improve the available water and air purification techniques.

This Special Issue is devoted to the latest developments in the fields of Advanced Liquid Waste and Gas Waste Treatment Processes. We would like to invite researchers to submit both original and review papers. Topics include, but are not limited to the following:

- Advances in the industrial and communal wastewater treatment
- Advanced oxidation processes in wastewater treatment
- Water purification
- Biofiltration in air and water treatment processes
- Air pollution control systems
- Air deodorization
- Biogas upgrading
- Modeling and evaluation of air and water treatment processes
- Control of air and water treatment processes

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
