### **Message from the Guest Editor**

Dear Colleagues,

Recently, interest in the application of microbiology in agriculture has focused on pesticidal, herbicidal, insecticidal, and nematicidal activity. However, these have not been widely applied in agriculture to date because of certain requirements that must first be met. The association of microbes with specific diseases is also very important, and studying this association has led to great advances and discoveries in the healthcare pharmaceutical and medical industry, from biologics to devices. Hence, studies on the innovative application of next-generation microbiology in agriculture and medicine are both expected and encouraged.

It is our pleasure to invite you to contribute your latest research work to our journal's upcoming Special Issue.

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
