Message from the Guest Editors

This Special Issue will publish high-quality research articles on the different aspects of novel adsorbents and their applications. The present topic of the coverages includes but is not limited to:

- Synthesis and application of novel adsorbents to remediate the environment;
- Development in synthesis methods of novel adsorbents;
- Theoretical and experimental investigation of properties and effectiveness of the novel adsorbents;
- Promoting, commercializing, distribution, utilization, regeneration, and sustainable management of the novel adsorbents.

Deadline for manuscript submissions:

closed (30 October 2022)

Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
